SCORES MINERS BURIED ALIVE IN COAL MINE

Pennsylvania Mine Scene of Catastrophe Equalling Argonaut Disaster

SPANGLER, Pa., Nov. 6.—Twenty-five bodies had been recovered at 3 o'clock from the Rolly mine where an explosion occurred this morning. Six other miners were taken out and some may die. Rescue work is proceeding under the direction of the United States bureau of mines.

PRESNOS, Pa., Nov. 6.—A mine rescue train from Pittsburgh dashed through here for Spangler at noon. Rescuers heard the report that 28 miners had been taken from the mine.

SPANGLER, Pa., Nov. 6.—A terrific explosion in the workings of the Rolly mine at 7:30 o'clock this morning resulted in the deaths of 28 miners who had gone to work half an hour before. Superintendent Planter immediately entered the mine with rescue cars. Mine rescue cars are coming from Pittsburgh and New York. Scores of miners are gathering here to help. Most of the miners are married. Families gathered at the mine mouth, dumb with horror. It is not known whether the men have been cut off from a main way or secondary exit.

SOUTH WALES PARTY IS NOW UNDER FIRE

SYDNEY, N. S. W., Nov. 6.—The position of federal politics is described as critical and an election is likely in November or December, although the parliament has several months to run beyond the end of the year according to political observers.

A series of censure motions has been launched by both opposition parties, the labor and the country party.

An early election is believed to be planned by Premier Hughes as a reply to what he terms the obstructive tactics.

WEATHER IS CLEARING

DENVER, Colo., Nov. 6.—Generally fair weather and lower temperatures today are following two days of storm which caused four deaths and injury to horses and badly disrupted wire communication.

LARRY HOGUE DROPS DEAD ON MAIN STREET

Lawrence Hogue, better known as "Larry" to the residents of southern Nevada, suffered an attack of heart failure this afternoon at 1 o'clock on upper Main street and before he reached the county hospital where he was an inmate, life was extinct. When Mr. Hogue fell he was picked up by Robert Joyner who placed him in his car and drove to the hospital with the unconscious man, but examination revealed that life had ebbed away.

Larry Hogue was born in Ireland 4 years ago, but came to the United States when a young man, making his way to Eldorado county, California, where he spent 15 years of his life in prospecting, and where he held mining property, near Shingle Springs for many years. He came to Tonopah 20 years ago and had prospected in this and near vicinity for many years. He was half owner in a group of claims known as the Tono Gold, located four miles north of Tonopah, and on which he had performed the assessment work for years. His associate is Chas. J. Dugan of Paradise Hot Springs, Calif., and a former resident of Tonopah.

Mr. Hogue suffered the loss of his right leg a number of years ago, yet despite his infirmity he continued to perform the assessment work on his mining properties.

MIDDLE STATES ARE VISITED BY STORMS

SAN FRANCISCO, Nov. 6.—The snow and rain storms which have been progressing since Saturday prostrated a hundred wires in Colorado, Wyoming and Nebraska, hampering telephone and telegraph service. Storm warnings posted at San Francisco and Tacoma, Wash., predict a continuation of the storm which began last night at a 40-mile gale, moving in from the Pacific to the Puget Sound.

FASCISTI ENGAGE IN BLOODY CONFLICTS

ROME, Nov. 6.—The fascisti and nationalists clashed today at Taranto, southeastern Italy, over local politics. In a fight seven were killed and a number wounded, large casualties being suffered on both sides.

POLITICAL FORECAST SHOWS REP. VICTORY

RENO, Nov. 6.—The republican state central committee, after conservative estimates and reliable information, received from all sections of the state, says John H. Miller, republican candidate for governor, will carry the following counties: Washoe, Churchill, Storey, Ormsby, Douglas, Lyon, Mineral, Nye, Esmeralda, Clark, Lander, Eureka and Pershing. Scrugham will break even in Humboldt, Elko and White Pine counties.

CAMPAIGN NOW DRAWING CLOSE WAXING WARM

Senator Lodge's Supporters Say He is Sure of Being Returned to Senate

BOSTON, Mass., Nov. 6.—Apart from Massachusetts where the campaign closed with claims of victory by both republican and democratic spokesmen, predictions on tomorrow's election are lacking in the New England states. Supporters of William A. Gaston, democratic candidate for the senate were optimistic that he will carry Massachusetts but republican leaders asserted Senator Lodge will carry the state by a slightly diminished majority.

CHICAGO, Nov. 6.—Nine senators of the middle west will be elected tomorrow. The six senators seeking reelection are Townsend of Michigan, Kellogg of Minnesota, La Follette of Wisconsin, all republicans, and Hancock of Nebraska, Reed of Missouri and Potomac of Ohio, democrats.

President Harding's administration is the big issue in Ohio with prohibition also a question the state voting for a beer and wine referendum.

In Missouri Reed is drawing opposition from the drys and Wilson, out in relying on many republican votes to desert Reginald Brewster on the wet and dry issue.

Two women, Mrs. Annie Olson of Minnesota and Mrs. J. J. Joper of Wisconsin are with the democrats as candidates for the senate.

NYE COUNTY BOY FOR DISTRICT ATTORNEY

In contemplating the character of Charles A. DeFon, candidate for district attorney, one is prompted to immediately consider the strength of the combination of these qualities, culture, integrity and ability. And like many another who has gained respect and advancement in the profession of the law he has moved to his station by hard work in early life and persistent study, as his goal rested on, upward and ahead. And he studied something else besides the law, he learned the value of "treating people right."

A Nevada rancher's son, Charles A. DeFon was born in that low-rolling plain and those small hills where the sagebrush is well rooted; at Duckwater, Nye county, in 1887. His early life was spent in ranching and stockraising and mining. He entered the Eureka high school and from there to the University of Indiana, finishing his studies in Columbia university, and being admitted to the bar as a full fledged lawyer in 1913.

He first entered the law offices of H. R. Cooke, at Tonopah, and later opened offices of his own where he has practiced his profession ever since, with the exception of eighteen months, when he gave his services to our government in the world's war, carrying a common soldier's gun.

(Paid for by his friends)

CALIFORNIA IS REPUBLICAN BY BIG MAJORITY

Manager of Party Says Richardson Will Be Elected With Greatest of Ease

SAN FRANCISCO, Nov. 6.—Friend W. Richardson, republican candidate for governor, made a statement today that he is going along on the issue of economy despite the efforts to sidetrack him and that he will be elected tomorrow. The manager of Thomas Woolwine, however, predicted the democratic candidate will win by a comfortable majority, saying he is strong south of Tehachapi. Citizens of the far western states will vote tomorrow to fill practically all federal and state offices within their control. They also will decide numerous initiative measures, ranging from bond issues to changes in the school system.

The California vote on the prohibition law and a bond issue of ten million for former service men and their homes is creating a lot of interest in this state.

LOS ANGELES LOSES WATER POWER SUIT

SAN FRANCISCO, Nov. 6.—The United States circuit court of appeals reversed the decision of the district court allowing the city of Los Angeles to condemn a power site on Owens river now owned by the San Diego Steam Power company, and held to be an enormous potential value. The present value is a half million. The company contended the right of the city to condemn and not the superior company's right to maintain and improve the holding. The project was desired by Los Angeles to generate light and power.

The court held today that "provisions of the defendant had been appropriated to public use for other counties, municipalities and incorporated cities and towns and their inhabitants and not for the city of Los Angeles nor its inhabitants. We must hold to the purpose of the legislature to provide for property of a private corporation as well as the property of a municipal corporation appropriated to public use in one county may not be appropriated to public use by another county or city and county while such property is so applied and used."

CANDALERIA MILL IS MILLING GOOD ORE

The new granite mill of the Candalaria Mines company is treating over 200 tons of ore daily and during the present month will attain its rated capacity of 300 tons. With the addition of leaching tanks and drying equipment the capacity of the plant will be increased gradually until eventually it will treat between 500 and 600 tons daily.

The latest report sent out by Superintendent C. A. Bennett to F. M. Nanson who is a member of the executive committee of the board of directors, says that the mill is operating smoothly, with no interruption and that milling results and ore values are more than satisfactory.

The most notable of recent developments has been the further opening of what is known as the 1.6 section of the main vein in the Lucky Hill mine, on the intermediate level above the Lucky Baldwin tunnel. For a long distance on the north drift has been in ore of excellent grade, averaging around 30 ounces silver and the ore has now been opened by a crosscut for a width of over 16 feet, assaying to that width from 29 ounces to 72 ounces silver and only the hanging wall has been exposed. Ore broken from the Jarrold stopes has been averaging \$33 per ton.

SILVER PICK WORKERS MAKE STRIKE COMPLETE

The strike of employees in the mines of the Goldfield district became complete Saturday morning when the men employed by the Silver Pick walked out. It is understood that the Silver Pick employees by the Silver Pick met Friday night with the men on strike and that the Pick men voted against the strike and then, after stating their position in the way, said they would not return to work. This move, it is understood, was taken by Pick workers so that their stand against the strike might be known and they merely decided not to remain at work while the other men were out.

The Bonanza is not afraid and price is just one dollar a month, delivered at your door.

AMERICAN IS STILL HELD BY JAPANESE

TOKIO, Nov. 6.—R. M. Andrews, American, prominent business man here for many years, continues to be interrogated in connection with the charge that he several weeks ago photographed the defense areas. There is no formal complaint against him. His home and papers were ransacked.

MRS. PHILLIPS' TRIAL PROGRESSES SLOWLY

LOS ANGELES, Nov. 6.—Most of today's session of court in the trial of Mrs. Clara Phillips, charged with the murder of Mrs. Alberta Meadows, concerned a 29 page hypothetical question regarding her sanity to the testimony of attorneys for the prosecution and defense. The question covers the actions of the defendant and the history of her family.

WOMEN'S VOTE NOW WORRYING THE WISEACRES

Politicians Admit Answer Will Not Be Known Until After Votes are Counted

WASHINGTON, D. C., Nov. 6.—"What will the women do?" now is the question on the lips of innumerable political candidates and managers, and most of them admit that the answer will not be known until after the votes on November 7 are counted.

The women's vote is a big factor in many campaigns, congressional and gubernatorial as well as local in the present campaign and veteran political leaders of the male persuasion at least declare it remains an unknown factor in most cases. Women cast their largest vote in 1920 presidential election after ratification of the suffrage amendment. The future feminine voting is expected to be much larger. The total primary vote cast in 1920 was about 25,000,000 as compared with 18,000,000 four years before. While politicians do not believe that the total increase was due to woman suffrage they are sure that a large proportion of the new millions of electors was of the feminine sex, previous presidential years showing but comparatively small increases. The politicians doubt, however, that the feminine interest in the congressional election will be as large as two years ago.

PERSONAL

FRED NINNIS returned last night from Blair Junction where he inspected a borax property.

J. A. MURPHY, the popular hardware traveling salesman, is calling upon the Tonopah trade.

FRED JOHNS, who is developing mining property at Silver Bow, is spending a few days in Tonopah.

KEY PITTMAN, U. S. senator, arrived here this morning and will remain over until tomorrow to cast his vote.

MRS. AL FREVERT is a visitor to Tonopah and will exercise her franchise at the election to be held tomorrow.

AL FREVERT and Ed Kirchen left early yesterday morning on a hunting expedition that took them to Peavine creek.

STEPHEN (MICKY) Johns, who holds a position in the office of the secretary of state, arrived Sunday to remain over until after election.

JAMES GRIMES, old time resident of Tonopah and father of the Divide district, arrived this morning from his home in Oakland, and will remain over to cast his vote tomorrow.

HARRY H. ATKINSON, your next attorney general, was welcomed here this morning from his campaign which covered a period of several weeks. He was met at the train by a number of friends.

A. W. NEWBERRY, well known consulting engineer, who has been at Grass Valley and San Francisco for some time past, was an arrival in Tonopah this morning to look after professional business.

PARK V. PERKINS, president and manager of the American Carrara Marble company, and L. W. Dye, manager of the Natural Resources company, operating the City mine in Death Valley and the Bankers lease on the Florence mine at Goldfield, are visitors to Tonopah today.

The Bonanza job printing department is the most complete in the state. No job too intricate for our experts.

RAILROADS ARE INSTRUCTED TO CHARGE RENTAL

Must Be in Proportion to Sums Charged by Private Individuals to Property

WASHINGTON, D. C., Nov. 6.—Railroads leasing lands along their right of way to private users must charge rentals equal to sums which private owners would charge for similar property or transaction will be considered by the interstate commerce commission in the form of regulating in violation of the law. The commission held the railroad practice of renting property in New York City, Fresno and Spokane in some cases is low rental and large shippers have been practically given a reduction on transportation charges amounting to a refund.

MAN AND WIFE ARE FOUND DEAD AT TABLE

LOS ANGELES, Nov. 6.—George K. Briley, 65, and his wife were found dead at their breakfast table of asphyxiation. Two heaters lighted the unventilated room.

MRS. LIDA GILBERT LOGICAL CANDIDATE

Voters should bear in mind that Mrs. Lida Gilbert has proven herself the most efficient auditor and recorder that ever graced an office in Nye county. She is thorough and painstaking in the performance of her duties and is ever obliging. A vote for Mrs. Gilbert is a vote to insure excellent conduct of the office and her election seems assured.

ILLINOIS ADJUSTS BLUE SKY MATTERS

Restrictions of the corporation commission governing the expenditure of money received from the sale of stock until the full amount authorized in the permit issued shall have been paid in, has delayed plans of the Illinois Nevada Mines corporation in the installation of a cyanide mill at the Illinois mine, Nye county, Nevada. The order of the commission has been modified and funds needed for immediate use are expected to be released soon.

The company is operating the Illinois an old time silver mine, about 35 miles south of Rawhide, and has contracted to purchase the 20 stamp Black Eagle mill at Rawhide, and will install it at the mine. Work of dismantling the mill was started more than a month ago and L. H. Carver, president and manager of the corporation, expected to have the machinery moved and installed and the mill ready for operation by January 1.

A Corliss steam engine using oil for fuel will operate an electric generator, supplying power for the mill. The machinery will be run by individual motors. Luning in Mineral County is the shipping point. George F. Lorchen is general superintendent.

DEVELOPS CHAMPIONS BUT MISSES THE 400

CHICAGO, Nov. 6.—Not long ago the newspapers recorded the fact that Miss Sybil Bauer, 17 year old Chicago girl had swam the 449 yard backstroke in a meet in Bermuda in 6:34 breaking for the first time in recorded athletic history, a world record held by a man. The old mark of 6:28 was made by Stubby Krueger. Behind that bare announcement is the story of a coach who can't swim the 449 or probably half that distance but who brought out many famous swimmers. He is William Bachrach, swimming instructor of the Illinois Athletic club.

GREATEST RALLY OF CAMPAIGN AT BUTLER TONIGHT

The republicans will hold the last rally of the campaign at the Butler theater tonight following the first show. The home coming of Harry H. Atkinson, candidate for attorney general, will be celebrated and it is expected that a record breaking crowd will be present. Local candidates will also be present.

A WOMAN VICTIM.

ITALIAN AMBASSADOR OBJECTS TO HOSTILITY

ROME, Nov. 6.—Count Storza, Italian ambassador to France, will object to any hostile demonstration by the fascisti when he arrives at Bash-elene on the Italian frontier. He is returning to Rome for a conference with Premier Mussolini. The fascisti attached the counts carriage from the train but carabinieri rescued him.

DeVALERA DENIES PEACE OVERTURES

DUBLIN, Nov. 6.—A long statement issued as the daily communiqué, and signed by De Valera as president, announces definitely there is no truth in rumors of peace negotiations between his party and the free state government.

GEORGE W. ALLEN IS NEXT JUSTICE

George W. Allen, non-partisan candidate for justice of the peace, of the Tonopah township is the ideal man for the position. He is well equipped through legal knowledge to give a business administration, and his honesty and sense of justice cannot be questioned. Voters should cast a ballot for George W. Allen and thereby avoid making any mistake.

MOUTON STARTS ON FLIGHT TO MINA AND RENO

Makes Departure Sunday Morning and Will Stop Short Time at Yerington

"Monte" Mouton, aviator, left Sunday morning in his airplane for Mina, Yerington and Reno. His route back he will distribute campaign literature in the interests of John H. Miller and Charles S. Chandler, republican nominees respectively for governor and United States senator. Mr. Mouton is a staunch supporter of the candidates from top to bottom on the republican ticket. Being a member of the Veterans of Foreign Wars and the American Legion, he is thoroughly familiar with the mealy treatment that has been accorded the American Legion boys by the democratic administration, and he does not hesitate to express his views regarding the action of the political parasites at Carson City, who have been holding down the reins in the state house and who at all times have refused to give consideration to the boys who are worthy and who sacrificed so much that this country might remain intact.

Mr. Mouton in company with J. Grant Crumley, visited Goldfield Saturday in the interest of John H. Miller and Charles S. Chandler. Mr. Mouton says the vote of the American Legion is not against John H. Miller, but on the other hand the majority are for him. While here he straightened out a lot of democratic propaganda that the Legion boys were for Scrugham, and after his interview with members of the local post many said they were satisfied that John H. Miller was the logical candidate for chief executive of this state.

Mouton the aviator, arrived in Reno Sunday afternoon at 3 o'clock. En route he landed at Mina and Yerington. Today he is en route over Lovelock, Winnemucca and Elko, distributing literature, and will bombard Reno tonight and tomorrow.

"BILL" THOMAS WILL YOU MAKE ANSWER?

Editor Bonanza: Will you please through your columns ask W. H. (Bill) Thomas, who is now seeking re-election as sheriff and assessor, what he has done with the money that he collected for stock sold to the women of Tonopah who were his customers at the meat market in the Aztec Divide Mining company, and upon his representation that this stock would be listed up in the stock market, and which was never done. What did you do with the money that you secured from the stock that you sold. Isn't it a fact that you even sold the company's hoisting plant and buildings, and that no accounting has ever been made to the stockholders? Don't you think that the many women subscribers to your Aztec Divide Mining company should have been paid back pro rata for the money received from the sale of the hoisting plant and buildings, if only a cent a share was realized?

A WOMAN VICTIM.

TURKS BECOME UNDULY RULY WITH ALLIES

Insists That Warships of All Nations Must Ask Authorization to Pass Straits

CONSTANTINOPLE, Nov. 6.—The Turkish nationalist government handed a note today to the allied high commissioners here stating that warships of all nations must ask authorization to pass through the Straits of the Bosphorus, according to a Havas correspondent. Warships also must salute the new government of Turkey.

LONDON, Nov. 6.—As a result of the new situation created at Constantinople by the demand of Rafet Pasha that allied military occupation of the city cease, the peace conference at Lausanne on Nov. 13 has been postponed possibly for a fortnight, it was announced here. It is stated authorities in the city are anxious will the British view regarding the presence of allied troops at Constantinople be changed. The British intend to uphold the Mudanya armistice agreement and remain in the neutral zone with their troops. If the Ankara government, however, desires to send civil and administrative officers to Istanbul, Ankara, and Constantinople there will be no objection. So far as the British are concerned the situation has not abated. It is believed the British are anxious to return to protect their and the French interests.

LONDON, Nov. 6.—The new situation in Turkey, following the signing of the Mudanya armistice, is creating at least two serious problems. The main one being whether the action of the Ankara government will really enable the British to remain in the neutral zone with their troops. The second problem is whether the British will be able to maintain their position in the neutral zone with their troops. The British are anxious to uphold the Mudanya armistice agreement and remain in the neutral zone with their troops. If the Ankara government, however, desires to send civil and administrative officers to Istanbul, Ankara, and Constantinople there will be no objection. So far as the British are concerned the situation has not abated. It is believed the British are anxious to return to protect their and the French interests.

PARIS, Nov. 6.—The French and Italian governments will insist that the Ankara government respect the terms of the Mudanya armistice and instructions to the high commissioners at Constantinople have been framed in that spirit. It is believed the Ankara authorities will accept the viewpoint of the allies.

SCRUGHAM WILL LOSE OUT IN CLARK COUNTY

LAS VEGAS, Nov. 6.—The claim that J. G. Scrugham will carry Clark county is absurd. The railroad men of this section repudiated Governor Boyle and his man, Friday, Scrugham. The railroad strike has proved to the laboring man that they want no more of Governor Boyle and his consort, Scrugham, whom he has been training for the past four years to become his successor. The laboring class of this section say Boyle and Scrugham are one and the same, and they will cast their votes for John H. Miller, the next governor of Nevada.

Votes for Harry H. Atkinson for attorney general and you are assured that no money will be expended for the employment of special counsel.
